Integrated Payroll, HRMS & Time Attendance Software — Malaysia's Complete  
Workforce Automation

# 1. Company Overview, Mission & Tagline

---

## Company

**Smart Touch Technology** (Smart Touch Technology Sdn Bhd) is a Malaysian/Singaporean provider of integrated HR automation, biometric access, mobile-first platforms and smart infrastructure solutions. The company builds connected, intelligent ecosystems for workforce and operational management, with over 20 years of experience across Malaysia and Singapore, serving businesses of all sizes.

## Primary Tagline / Hero Statement

"Integrated Payroll, HRMS & Time Attendance Software — Malaysia's Complete Workforce Automation."

Supporting line: "Cloud-based payroll system with automated statutory compliance (EPF, SOCSO, PCB), biometric time attendance, leave & shift management, and visitor access control — all in one platform."

Brand signature: "**Smart Touch Technology — PAL is always with you. And so are we.**"

## Mission

To solve real-world HR problems with smart, scalable technology — transforming Payroll, Attendance and Leave (PAL) processes and extending into full workforce and operational management. The company bridges the gap between disconnected HR software and daily operations by linking physical hardware (fingerprint / face ID / turnstiles) directly to digital operations, eliminating manual data entry and "buddy punching" fraud.

## Company Story

Founded in 2004 by **Kenny Choy (■)**, a systems visionary with a degree in Information Management from Tamkang University. The journey began in 1995 with Kenny's first project — developing a payroll and attendance system for over 1,000 employees. That experience grew into a company committed to transforming Payroll, Attendance and Leave (PAL) processes and eventually a fully integrated HR and operational ecosystem.

## Key Milestones

- **1995** — First payroll & attendance project for 1,000+ employees.
- **2004** — Smart Touch Technology founded by Kenny Choy.
- **2009** — Biometric Authentication System (BAS) introduced as the smart core tying all modules together.
- **2020** — SmartGoGo mobile-first HR app launched.
- **2025** — Full integrated HR & operational ecosystem.

## Company Philosophy: Trust, Innovation, Integration

Smart Touch is not just about automation — it is about delivering trust through precision, innovation through design, and efficiency through integration. Every module is designed to ensure local compliance, operational transparency, employee convenience, managerial control, and future scalability.

## Platform Architecture

**PAL** (Payroll, Attendance, Leave) is the heart of the system, **BAS** (Biometric Authentication System) is the brain, and **SmartGoGo** is the mobile arm. All modules are unified under BAS and accessible via SmartGoGo and the Smart Touch E-Portal.

## 2. Trust Signals & Social Proof

---

**Trusted by 2,500+ Factories, Offices and Condominiums in Malaysia.**

Client logos featured on the homepage include: Westlite, Gardenia, Coca-Cola, Samsung, Super, Volvo, Levi's, ZF, Daily Fresh, JCY, Zenxin, Power Root, Sime Darby Oil, MMHE and Wilmar.

## 3. Products & Services (with Descriptions)

---

The offering is organised into three layers: a Core HRMS Solution, Extended HRMS Solutions, and Biometric & Security Solutions.

### 3.1 Core HRMS Solution — Payroll, Attendance & SmartGoGo

Tagline: "Your foundation for accurate payroll and workforce control."

#### **Payroll System Malaysia (SmartPay)**

Automated, statutory-compliant payroll for Malaysian and Singaporean law, integrated with EPF, SOCSO and tax deductions.

- Automated salary calculation
- EPF, SOCSO, EIS & PCB compliance
- Bonus, overtime & allowance management

#### **Attendance & Time Management (Smartime)**

Real-time biometric or mobile attendance tracking with scheduling and shift tools.

- Face recognition attendance system
- Fingerprint, card & mobile clock-in options
- Multi-branch & multi-shift support
- Real-time attendance dashboard

#### **SmartGoGo Mobile HR App**

A mobile-first HR solution (launched 2020) that empowers employees and managers. Serverless, installation-free and ideal for mobile and field-based teams.

- GPS-based mobile attendance / clock in via GPS
- Leave application & approval workflow
- Claims submission & approval
- Access e-payslips anytime, anywhere
- Approve requests on the go

### 3.2 Extended HRMS Solutions — Operational HR Beyond Payroll

Tagline: "Extend your HRMS capabilities into daily operations, compliance, and workforce control."

#### **Visitor Management System (VMS)**

Registers, verifies and tracks visitor entry using facial recognition or QR codes, ensuring safe and secure access control, especially in high-security areas and office lobbies.

- Visitor self-registration
- QR code entry
- Kiosk & mobile VMS
- Host notification & access tracking

### **Canteen Subsidy & Meal Management System**

Smart, hygienic and automated meal ordering and payment via face / QR / RFID, with dietary tracking and usage limits.

- Employee meal entitlement
- Face / card / QR consumption
- Subsidy control & fraud prevention
- Detailed consumption reports

### **Dormitory & Hostel Management System**

Efficient allocation, room access, occupancy tracking and utilities management for employee housing. Suitable for factories and construction dormitories.

- Worker registration & allocation
- Attendance & access monitoring
- Compliance-ready reporting

### **Job Costing System**

Monitors labour hours by project / job codes to enable accurate billing, labour analysis and cost control.

### **Construction Site System**

Built specifically for the construction sector — combines biometric access control, attendance, job costing, safety compliance and mobile clock-ins at remote job sites, ensuring workforce discipline and project accountability.

## **3.3 Biometric & Security Solutions**

Tagline: "A complete physical security layer fully integrated with HRMS."

### **Biometric Face Recognition Devices**

Touchless, high-speed facial recognition for attendance and access control.

- Touchless & high-speed recognition
- Attendance & access control
- Mask & lighting tolerant
- Integration with HRMS & VMS

### **Barrier Solutions**

- Swing barriers
- Turnstiles
- Speed gates
- QR code & face recognition integration

### **Door Access Control**

- Office & restricted area control
- Staff & visitor access rights
- Centralized management

## **3.4 Other Core HR Systems (PAL Foundation)**

- **Leave Management System (SmartLeave)** — online leave applications, approval workflows and balance tracking.
- **Claims System (SmartClaim)** — end-to-end expense submission, approval and payroll linkage.
- **SmartGoGo Leave** — mobile leave module.
- **Payslip System** — e-payslip generation and templates.

### 3.5 Additional Listed Solutions & Products

- Smart PAL (unified Payroll-Attendance-Leave package)
- Time Attendance System (TMS)
- Guard Patrol System
- Access Control System (Falco Web)
- Long Range RFID
- BAS — Biometric Authentication System
- Security systems: CCTV Camera, Alarm System
- Access cards: Clone Card, Access Card Duplication
- HIK product: Interactive Display
- ESD Tripod turnstile gate with access control

## 4. Key Features & Benefits

---

Positioning question used on site: "Is Your Current HR Software Disconnected from Your Operations?"  
Smart Touch bridges the gap — connecting physical hardware (fingerprint / face ID / turnstiles) directly to digital operations.

### Intelligent Time Attendance (Hardware Linked)

Pulls data directly from fingerprint, face ID and turnstile devices in real time — no manual uploads.

- **Prevent fraud:** eliminate "buddy punching" with biometric verification
- **Live tracking:** see who is on-site instantly
- **Shift logic:** handles multiple shifts, overnight crossovers and flexible rostering automatically

### LHDN-Compliant Payroll Automation

Payroll module is native to the attendance data.

- **Auto-calculation:** OT, lateness and allowances calculated the moment an employee clocks out
- **100% compliant:** auto-generated forms for EPF (KWSP), SOCSO (PERKESO), EIS and PCB (LHDN)
- **E-payslips:** secure mobile access for employees

### Advanced Security & Access Control

- **Zone control:** restrict employee access to hazardous or sensitive areas
- **Visitor Management (VMS):** track guests and contractors digitally
- **Turnstile integration:** only active, compliant staff can enter the floor

### E-Leave & E-Claim (Mobile Ready)

- **App-based application:** staff apply for leave or claims via mobile
- **Manager approval:** one-click approval flows
- **Balance sync:** leave balances update automatically in payroll

### Why Smart Touch Is a Best Choice

- 24x7 work culture
- Professional team
- Personalized approach
- Regular updates
- We love what we do
- High quality deliverables

## Smart Touch E-Portal — Central Command

A web-based platform offering complete control across all HR and operational systems:

- Staff self-service (e-leave, payslips, clock-in/out, claims)
- Manager approval flows
- Real-time dashboards and alerts
- Role-based access for HR, Admin, IT and Security teams

## 5. Target Industries / Solutions by Environment

---

Section heading: "HR & Access Control Solutions for Industrial Environments."

### Manufacturing & Factories

High-volume workforce management with rotating shifts, biometric attendance and strict production floor access control.

### Construction & Engineering

Rugged biometric devices for on-site attendance tracking, project-based payroll and contractor access monitoring.

### Large Enterprises

Centralized management for multi-branch offices with unified payroll and security protocols.

## 6. "What We Do" Content Blocks

---

- **Biometric Face Recognition for Payroll System Malaysia** — verifies employee identity accurately to capture time attendance; clockings transmitted via LAN / Internet to the Time Attendance software.
- **Time Attendance and Payroll Malaysia (TMS)** — captures employee TIME IN & TIME OUT from biometric devices (fingerprint, face recognition) and mobile apps; calculates timesheets with SOCSO table and EPF rate for lateness, overtime, daily allowances, etc.
- **Biometric Fingerprint in Payroll Malaysia** — verifies identity to capture attendance; data submitted into Time Attendance and payroll for record.
- **Access Control for Payroll Software Malaysia** — tracks all incoming and outgoing visitors; ensures safety and security of shipyards, construction sites and companies.
- **Payroll Software for Payroll System Malaysia** — biometric verification feeding attendance into the payroll record.

| <b>YouTube</b>   | youtube.com/channel/UCWAvmLE9HyDnoKdewb9gxgw                                           |

## 9. Pricing Tiers

No published pricing tiers or rate tables are displayed on the public-facing pages. A **"Pricing"** link exists in the footer Top Menu pointing to [www.smartouch.com.my/price](http://www.smartouch.com.my/price), but no tiered pricing is shown on the home, about or contact pages. Pricing appears to be quote-based / demo-driven via the contact and demo call-to-action flows.

## 10. Call-to-Action Messages & Buttons

- **Book a Demo** → links to the Contact page (appears in hero and after the FAQ section)
- **Start Your Payroll Automation** → links to the SmartPAL page
- **Click here** → repeated on each product card, linking to the relevant product/solution page
- **WhatsApp us** → floating WhatsApp contact button
- **Login** → customer portal login

## 11. Homepage Layout & Content Sections (in order)

- 1 Top utility bar with social links (Facebook, Google+, LinkedIn, YouTube)
- 2 Header: logo + primary navigation (Solution, Time Clock, Product, Project Reference, About Us, Contact Us, Blog, Login)
- 3 Hero banner: headline, sub-headline, and two CTAs (Book a Demo / Start Your Payroll Automation) with device imagery
- 4 Trust Signals: "Trusted by 2500+..." + client logo wall

- 5 Core HRMS Solution: 3 product cards (Payroll, Attendance & Time, SmartGoGo)
- 6 Extended HRMS Solutions: 3 cards (VMS, Canteen, Dormitory)
- 7 Biometric & Security Solutions: 3 cards (Face Recognition, Barrier, Door Access)
- 8 "Is Your Current HR Software Disconnected..." feature/benefit block (4 feature panels)
- 9 Industries served: Manufacturing, Construction, Large Enterprises
- 10 "What We Do" block: 5 illustrated capability summaries
- 11 "What Makes Smart Touch a Best Choice": 6 value icons
- 12 FAQ section (accordion)
- 13 Book a Demo CTA
- 14 Footer: Top HRMS Solution, Top Payroll Information, Top Menu, Contact details, Time Clock links, social links, WhatsApp button

## 12. Forms & Interactive Elements

---

- **FAQ accordion** (expand/collapse) on the homepage
- **Floating WhatsApp chat button** for instant messaging
- **Contact / demo enquiry flow** driven by the Contact Us page ("Book a Demo")
- **Login portal** (Smart Touch E-Portal customer login)
- Dropdown / multi-level mega-menu navigation
- Product cards with hover/click-through links
- Payroll calculators referenced in Payroll Information (PCB, EPF, Salary, Overtime calculators)

### FAQ Content (verbatim Q&A)

- **Is Smarttouch Payroll compliant with the latest 2025 EPF rates?** Yes, the system updates automatically whenever the government announces new statutory rates.
- **Can I import data from Excel?** Yes, bulk import of employee data is allowed to help you get started quickly.
- **Does it support different OT rates?** Yes, custom OT formulas are supported (OT 1.0, 1.5, 2.0, and Rest Day calculations).

## 13. Technical / SEO Notes for Rebuild

---

- Platform: WordPress with Elementor 3.35.8 page builder; theme by Think Up Themes Ltd.
- Site name (meta): "Smart Touch Technology".
- Meta description: "The all-in-one HR solution for Malaysian manufacturing and enterprise. Seamlessly sync facial recognition, turnstiles, and shift rostering with LHDN-compliant payroll. Get a demo."
- Google Tag Manager (GTM-52ZG4P7) is installed.
- Logo asset: /wp-content/uploads/2024/06/STT\_logo.png
- Primary keywords woven through copy: payroll Malaysia, time attendance, biometric face recognition, EPF/SOCSO/PCB compliance, VMS, canteen subsidy, dormitory system.
